This document captures ideas, experiences, and informal recommendations from the Yaskawa Partner Support team. It is meant to augment – not supersede manuals or documentation from motoman.com. Please contact the Partner Support team at partnersupport@motoman.com for updates or clarification.

How to Modify A MOV Position

1. Move the cursor to the MOV instructions to be modified.
    *   Display the job content window and move the cursor to the MOV instructions to be changed.

2. Turn on the servo power and move the manipulator to the desired position.
    *   Press [Axis Key]

3. Press [Modify]
    *   The Modify Key lamp will blink.

4. Press [Enter]
    *   The position data is now recorded at the manipulators current position.
